*"Passionate, enthusiastic, sincere, intuitive, spontaneous, insightful, resourceful and humorous. The above adjectives are truly but a mere snapshot of what Craig Coble brings to his courses. The word facilitator really doesn't define Craig Coble."*

Craig is one of the most engaging facilitators you will meet. Clients value his sense of humor and his ability to engage participants in learning experiences that blend lecture, activities and multi-media. He custom designs many courses and is experienced in presenting a variety of workshops. He has worked for organizations in the DC area and has traveled as far as Japan to work as a facilitator and action learning coach.

Craig works collaboratively with clients to determine the best learning experiences to engage participants, to solve real-time business problems and to maximize retention. He is flexible in planning and delivering learning that moves at the rate of the group. Craig is masterful at managing group dynamics and yet can be present to one individual in a classroom if it serves their learning best.

*"Taking one of Craig Coble's Effective Presentation Skills classes is like getting an educational dose of adrenaline. Combining constructive criticism with an encouraging spirit, he shows you concrete ways to improve. Finding teaching methods that are interactive as well as engaging can be a challenge. Craig has the magic mix of both."*

As a Sophia Associates facilitator, he works to support the overall strategy of the organization and enjoys working on a team in a multi-disciplinary approach to leadership development programs.
